COAL BARONS
TELL SENATE
INSIDE STORY

Washington, D. C., Dec. 22.—How the National Coal association, an organization of coal operators, dealt with the government and coped with the fuel shortage last summer, were fields in which a senate investigating committee spent 10 hours.

J. H. A. Morrow, vice president of the organization, told the association committee to issue on transportation matters, sold the expenses of the United States geological survey in collecting official figures on coal production, kept Joseph P. Tumulty, secretary to president Wilson, informed of all steps, and successfully fought proposals to reestablish a fuel administration although coal prices continued to mount.

D. W. Wentz, the association's president, testified in purchasing for the war department at the height of the shortage, 12,000 tons of coal, for which the government paid \$11.50 a ton, while another corporation which he controlled was mining and selling contract coal for \$1.35 and \$1.37 a ton. A representative of the war department came to me and said that the department had ordered all its coal for the winter bought immediately during September. Mr. Wentz said, "I said that the department should buy a little then, and a little later on, and not go into the market for the full amount because it all could be obtained later for much less money. I was informed that the order was to buy immediately. The story I got was that the secretary of war felt the time necessary."

Mr. Wentz said he received commissions amounting to \$75,000 on the purchases. Senator Calder, producing a sheet of figures, said that "millions of tons" had been obtained for the army by other buyers during September and October. At prices ranging from \$1.39 to \$1.42. Another report from the shipping board said bunker coal at Hampton Roads during the summer and fall had cost the shipping board \$15.50 a ton.

It was said that Clara Smith will stay in the hotel that her acquittal would result.

The sympathy of the people of Carter county Oklahoma is with Clara Smith, Sheriff Garrett said. "Wentz to Get Fortune." James H. Mathers, of the firm of Mathers and Cookley, attorneys for Clara Smith, at Ardmore, declared that there is a will of the late J. H. Henson in evidence and that "Clara Smith is left one-fourth of the estate. He killed, however, that he did not believe the will to be in Ardmore. Henson was a multi-millionaire. Besides money from the estate proper, it is claimed that Clara Smith will get \$100,000 from his life insurance.

KOREA TELLS
NEW TALES
OF OUTRAGE

Washington, D. C., Dec. 22.—A statement charging Japanese military authorities with deeds more "heinous" and "barbarous" than anything ever alleged to have occurred in Belgium during the war, was issued here today by the Korean commission, based, the commission said, on authentic reports received by it from Manchuria.

The Japanese punitive expedition, sent to the Hunan district, following the clash last November between Japanese troops and Korean insurgents, was alleged to have been "a massacre of the district" and "massacred 145 peaceful inhabitants" in one town, where one house was burned. It was added, with women and children in view.

"Authentic reports received by the Korean commission in Washington," the statement said, "show a total of 258 non-combatants arrested and executed of whom 26 were wives and 12 were mothers, who answered 'Otoro Kase' (somebody, do so) to questions as to the whereabouts of their husbands and sons."

The Japanese government's "reign of terror in Korea," the commission asserted, "has been carried on in the southern Manchuria where 'some million Koreans' reside under Chinese rule. 'Driven out of their native land by the Japanese.'"

U. S. AID FOR FARMERS

CRIME WAVE IN EL PASO
MERE RIPPLE, SAYS JUDGE

(Continued from page 1.)

A day's hop to the coast. It's not far to New Orleans—not for crooks. "El Paso always has more crime at this time of the year than at any other season," said Judge Homs. "And we may be having a little more than usual right now. But El Paso hasn't anything like the big crimes that the large eastern cities are having."

Neither in number nor percentage of population, have, of course. They are to be expected in any place as large as this or larger. They can't be prevented entirely by the police as the police are not mind readers. But we have not been having the more serious crimes here. The crimes that have been committed here have not prompt attention from the police. They have done very well."

Judge Homs said it was the police system here he objected to. "I tell the police themselves," he said. "When I go to the police to get evidence it can't be found. The filing system and the method of keeping records are at fault. That, I think, can be and will be corrected."

El Paso Police Chief Burgess. Manuel Alon, was arrested at noon
